

GPT-LED - Luminaire Single LED

Put a removable stainless battery lamp to safety light your process without any electrical wire

Description

Powerful stainless steel luminaire can be mounted directly to any standard sight glass or TKC-Connections welded on vessel or pipeline and provides up to 200 Lumens of intense glare free illumination through a safety glass lens.

Extremely compact, without any wire, this battery lamp are ideally suited for use with fittings in aseptic conditions such as small vessels trolley mounted or pipeline in pharmaceutical industries where strict cleanliness codes are required.

Key features
